The Illinois Defense Industry
Association

Our world
has changed dramatically
since 1997,
when seven Illinois companies
founded the
Illinois Defense Industry Association
to provide a collective voice
for Illinois companies,
both small and large,
who provide goods and services
to our Nation's defense.

Postage

Since 1997, the need for a strong national defense has become clearer than ever. The Illinois Defense Industry Association has grown from our initial seven to include nearly 50 member firms employing thousands of Illinois workers and contributing billions of dollars to our state's economy.

In that time, Illinois has risen in rank from 48th to 22nd in the amount of federal defense dollars spent in each state, creating more opportunities for Illinois businesses involved in the defense industry.

IDIA members include a wide range of large and small manufacturing, information technology, research and development and service companies as well as educational and professional organizations with an interest in the enhancement of the Illinois defense industry and improved opportunities for Illinois businesses.

We offer excellent networking opportunities at IDIA Forums and Open-houses. Forums feature key speakers from government and business on a variety of topics of interest to the defense industry. Spotlight Open-houses are designed to showcase individual firm accomplishments, provide information on business opportunities as well as time to socialize with fellow members.

Benefits of Membership

Complimentary or reduced admission to IDIA events, forums and open-houses.

Yearly e-scriptions to "On-Guard" and "Fast Facts" IDIA electronic publications.

Networking opportunities with other member firms.

Inclusion on IDIA e-mail message list.

Opportunities to participate in outreach trips to state and federal elected officials

Complimentary copy of IDIA membership directory.

For additional information on joining IDIA contact Jeff Daktuliak at 708-780-6800.

Membership Application

IDIA 2004 membership year runs from May 1, 2005 - April 31, 2006.

Our Goal:

To increase Illinois' share of Defense dollars and to enhance Defense Contractors in Illinois

Objectives:

- *Raise awareness of the IDIA and the association's economic impact on the State of Illinois
- *Serve as a collective voice to the Illinois Delegation on defense issues of mutual concern
 - *Act as a source of information for congressional offices
 - *Share resources to achieve common goals
 - *Enhance Illinois Small Business Opportunities
